PROFILE

Software engineer and ESIEA graduate, specialized in Java/Spring Boot development and Full-Stack engineering. My experience at SAP France strengthened my skills in software quality and test automation. Through my projects, I have built applications integrating REST APIs, authentication, SQL/NoSQL databases and deployment. I am seeking a permanent position or freelance assignments where I can contribute to building reliable, useful and well-structured applications. Autonomous and rigorous, I can contribute from requirements analysis through production deployment.

TECHNICAL SKILLS

Backend: Java 17, Spring Boot, Spring MVC, Spring Security, JPA/Hibernate, Node.js, Express
Databases, APIs & security: PostgreSQL, MySQL, MongoDB, Oracle, SQL, JWT, authentication, role management, REST APIs

Frontend: Angular, React, TypeScript, JavaScript ES6+, HTML5, CSS3, SCSS, Tailwind CSS
Testing, deployment & tools: Selenium, Ranorex, Postman, Git/GitHub/GitLab, Maven, Docker (basic knowledge), Netlify, Render, Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

QA Automation Engineer Intern - SAP France | 09/2024 - 02/2025 | Levallois-Perret / Clichy

- Tested the SAP Analytics Cloud add-in for Microsoft Excel on Excel Web/Desktop in an Agile environment.
- Evaluated 2 automation tools - Selenium and Ranorex - then analyzed, executed and automated functional and regression test scenarios.
- Contributed to defect tracking, quality documentation and application reliability, with automated scenarios reusable within minutes.

Environment: Java, Selenium, Ranorex, SAP Analytics Cloud, Jira

Web Development Intern - Opinaka | 05/2020 - 07/2020 | Paris

- Developed web components, handled JSON data and created visualizations with Elasticsearch/Kibana.
- Contributed to technical content production and formatting data into information usable by the team.

Environment: JavaScript, Flutter/Dart, Strapi, Gatsby, Elasticsearch, Kibana

Software Development Intern - Office of Civil Aviation and Airports (OACA) | 01/2017 - 06/2017 | Tunis

- Analyzed requirements, created UML models and developed a management application for employer declarations.

Environment: Oracle Forms, PL/SQL, Oracle, UML, PowerAMC

Software Development Intern - SWIM Information Technologies | 08/2016 - 09/2016 | Kinshasa

- Developed a taxi management application and modeled customer, driver, vehicle and payment data.

Environment: Visual Basic 2012, Microsoft Access

TECHNICAL PROJECTS

BikeRent - Java / Spring Boot business application | [Live](#)

Secure bike rental application: authentication, USER/ADMIN roles, bookings, availability control and admin dashboard; complete deployed user journey.

Stack: Java 17, Spring Boot, Spring Security, JPA/Hibernate, Thymeleaf, Render.

BeatStore - MERN e-commerce platform | [Live](#)

Online music production marketplace with JWT authentication, cart, favorites, user/admin areas and Stripe Checkout payment with webhook; frontend and backend deployed.

Stack: React, Node.js, Express, MongoDB, JWT, Stripe, Netlify, Render.

NMK Royal - Professional client website | [Live](#)

Responsive website for a 360° photobooth business: service presentation, secure contact form, SEO optimization and deployment on the client domain; delivered after client feedback.

Stack: Next.js, React, TypeScript, Tailwind CSS, IONOS.

Admin Dashboard - Angular dashboard | [Live](#)

Modern administration interface with authentication, Guards, Interceptor, CRUD, dynamic filtering and RxJS; structured and maintainable frontend architecture.

Stack: Angular, TypeScript, RxJS, SCSS, REST API.

EDUCATION, CERTIFICATIONS & LANGUAGES

ESIEA - Engineering degree, Software Engineering | 2017 - 2025 | Graduated in 2025 | France

Bachelor's degree in Computer Science | 2014 - 2017 | Awarded in 2017 | Tunis

Certifications: TOEIC 725/990 | AWS Cloud Practitioner | Java SE 17 Fundamentals

Languages: French - native | English - intermediate professional level
